

Technical rider for

ARBO

Version: June 2025 by !UKBUM! / Jef & Mia

CREATION PERIOD: Jan 2025 - Oct 2025

General Information:

- **Accessibility:**
 - No spoken word.
 - No nudity.
The performance is wheelchair accessible.
 - Viewer discretion advised: This performance contains flashing lights or rapidly changing colours that could trigger seizures in individuals with light sensitivity or photosensitive epilepsy.
- **Audience:** Ages 12+
- **Duration:** 60 minutes.
- **Location:** Indoor or site-specific
- **Capacity:** Circular layout with a ~200-seat tribune (provided by UKBUM). Additional seating (supplied by the venue) can be added if the space allows. Up to 350 people max.
- **Showings:** It is possible to perform 2 shows daily with a minimum of 4 hrs between them (e.g. one starts at 15h, next one at 20h). - Not two days in a row -
- **Autoporté - UKBUM brings their own truss structure -**

Venue requirements - Indoor:

- Blackbox or dark space
- Scène sur scène
- **Specs:**
 - **Diameter:** 13,5m (tribune included)
 - **Height:** Minimum 7.5m
 - **Flooring:** Black, clean and empty dance floor with smooth and even surface.
 - For further details please look at the **drawing and dimensions below**.
- **Light & Sound:**
 - 4 LED wash lights
 - Light control desk
 - High-quality sound system
- **Electricity:** Stable connection; **two connections** with minimum of **3,6kW output**
- **Rigging:**
 - We require a height worker (genie) when a venue does not have moving rigging points.
 - The structure after set-up is **Autoporté**, so **no** need for **anchor points**.
 - 4 manual or electric hoists (1 needs to carry at least 300 kg) **or** 4 manual or electric truss lifts (1 needs to reach a height of at least 6 meters and carry at least 300 kg)

(e.g. ALP – LM600) - *This is also in case the venue does not have moving rigging points.*

- **Parking:** car and trailer must be able to reach the venue's loading dock. Parking for our van and trailer during the whole show day must be possible directly at the venue.

Setup & Breakdown:

- **Transportation:** UKBUM (three people) will arrive with one car (Renault Master, length: 6,2m) and a trailer (length: 3,5m).
WE REQUIRE AN ADEQUATE & SAFE PARKING SPACE FOR BOTH OF VEHICLES
- **Setup:** ~8 hours.
- **Breakdown:** ~3 hours.
- **Warm-up on Stage:** 40 minutes.
- **On-Site Assistance:** A minimum of 2 technicians are required for setup and breakdown. + An additional 2 volunteers for the setting up of the tribune.
- Requires **3-4 rigging points** at the venue to hoist the truss mainframe. (will be disconnected once the structure is self-standing)

Facilities Requirements:

- **Changing Room:**
 - Toilet, shower, sink, mirror, table, chairs, and costume rack.
- **Warm-up Area:**
 - Heated, clean, quiet space with tatami or practice mats.
- **Catering and accommodation:**
 - The organization hosting the performance provides catering for max. 3 people. If there are several days of performance, accommodation must be provided: for 3 persons, 1 double room and 1 single room.
